EASTSIDE WATER DISTRICT E-NEWS MARCH 2026

FROM THE GENERAL MANAGER

At the March 19, 2026, Eastside Water District board meeting, we discussed:

- ❖ Projects:
 - TID Replenishment Water is now available.
 - Davids Engineering continues to work on the 60% design of a Pipeline to deliver TID Replenishment Water to Sand Creek and Mustang Creek areas from the TID Main Canal to help address the groundwater water levels in ETSGSA. Turlock Irrigation District, Merced County and Stanislaus County reviewed the maps and provided input. *(see map on page 2)*
 - The 60% should be complete by the April 16 board meeting.
 - A meeting for Sand Creek and Mustang Creek landowners is being planned for May to discuss the pipeline.
- ❖ Merced Irrigation District
 - MID just released water for the 2026 irrigation season.
 - 3 water level samplings along Dry Creek have been taken this winter during storm events. The permit from the County to install a gaging station for Dry Creek on the Oakdale bridge was just approved.
 - Dry Creek landowners met March 5.
- ❖ Other Key Topics involving the ETS GSA-
 - Staff continues to assist landowners with Accounting Platform support. The “True Up” invoices, will be mailed in mid to the end of March 2026. Three walk-in assistance sessions are set to help landowners. 1 the end of March and 2 in April. The calendar is located on the next page with dates and times.
 - The MLRP Application due date was extended to March 4, 2026. Applications are being reviewed and will be presented to the ETS GSA TAC. Final recommendations will be made to the ETS GSA Board.
 - Stay informed! The board members encouraged landowners in Eastside Water District to attend the ETS GSA board meetings regularly and provide input.
